

AUSTRALIAN BIKE RIDE FUNDRAISER (2026)

EXCLUSIVE: AN EAST COAST CHARITY RIDE WITH A DIFFERENCE

In partnership with two leading Gold Coast charities At The Ark and PTSD Resurrected, The White Shadow Foundation (TWSF) is spear-heading a charity bike ride from Coolangatta to Byron Bay. By his own admission TWSF founder and CEO, Andrew Douglas says, “I am not a top athlete, that’s for sure. This ride down our beautiful east coast is not about being a top performer. I simply see it as a wonderful opportunity to fundraise and bring more awareness to what we do on a daily basis”. The non-profit organisation is headquartered on the Gold Coast in Queensland, raising and distributing funds across five key areas identified as critically important by its board of directors and stakeholders. Beneficiaries include individuals living in stressful situations, and frontline charities serving in local communities.

Having made the trip multiple times in the past, Andrew is well aware of the landscape. Assuming countless challenges, a support team will be with the groups of riders during the three stages.

Follow along on TWSF socials to get involved and track the journey.
